

## 2025 CONTRIBUTIONS STRUCTURE

*Funds raised through school contributions are used to supply educational resources and programs for students.*

*These funds are essential to ensure the resources to provide relevant and quality learning for your child.*

The following fee structures are school contributions for student invoices in 2025. The contributions are divided into:

### Subject Contributions

- **Subject Contribution:** These contributions cover the costs of consumables and equipment used for particular subjects.
- **Elective Subject Contributions including TEP (Talent Enrichment Program Yr 7-10):** Students and parents should take these contributions into consideration when choosing electives e.g. Hospitality, Visual Arts etc.

### General Contributions

- **Student Technology:** Funding is required to provide upgrades and maintenance of the technology infrastructure and to enable us to invest in new technology in the future.
- **P & C Contribution:** These contributions directly enhance and support educational resources for your child and funds are guided by you, the parents and caregivers. P & C contributions are family contributions that are invoiced to the youngest child attending Ku-ring-gai High School. You can be part of future discussions by attending meetings held twice a term.
- **School Contribution:** Are used to purchase educational and wellbeing resources.
- **Excursions/Incursions:** These are arranged by faculties to support the curriculum and are invoiced as they are organised. Fees for excursions are obligatory for all attending students. As excursion costs are determined on specific student numbers, refund of payments for students who do not attend might not be available and will only be considered once all payments have been processed.

**It would be appreciated if all contributions could be paid promptly.**

Payment can be made through the School Bytes parent portal login. <https://portal.schoolbytes.education/auth/login>

Payments can be made throughout the year. Excursions payments are to be paid by the due date.

Thank you in advance for your support, this enables us to continue to provide high quality resources for your children's learning.

Yours sincerely  
Mr. Stephen Plummer  
Principal  
February 2025
